

Semi Frameless Glass Pool Fencing

Semi Frameless Fixed Glass Panels

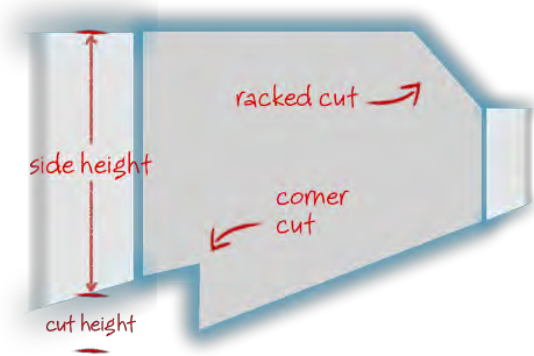

Semi Frameless Glass Panels are 10mm thick toughened safety glass certified to meet Australian Standard ASN25 2208. All of our semi frameless glass panels are 1200mm high meeting the Australian pool and spa safety legislation requirements, keeping your family safe. For extra protection, consider having Endurosheild installed on your panels to resist from scratches and sun damage.

Enduroshield for Glass Panel Protection

Enduroshield for glass pool fencing is a protective coating applied to glass panels that extends the effective and aesthetic life of your glass pool fencing. Enduroshield is especially effective against the build up of oil, lime, dirt, grime, salt and chlorine on your glass panels. By coating your glass pool fencing panels with Enduroshield you can reduce cleaning time by 90%, giving you more time to enjoy your pool rather than maintain it.

Frameless Glass Pool Fencing

Frameless Fixed Glass Panels

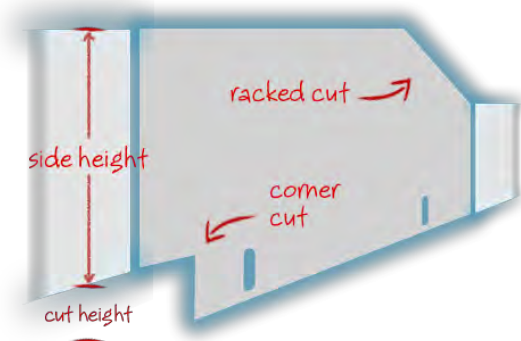

Unlike most other suppliers, our frameless glass panels come with two slot holes at the bottom of each glass panel (see diagram).
